AUTUMN WINTER 2026

NEW SEASON – NEW PERSPECTIVES

AUTUMN | WINTER 2026

With the Autumn | Winter 2026 collection, Himalaya opens a new chapter. This season marks the beginning of a special collaboration with the renowned Danish knitwear designer Charlotte Mansted.

Under the name FRISTED by Charlotte Mansted, her distinctive design handwriting meets Himalaya's long-standing expertise. The result is a knitwear collection for women who embrace colour – defined by clear shapes, expressive patterns and high-quality natural materials such as yak, merino, lambswool and organic cotton.

At the same time, the Autumn | Winter 2026 collection represents a consistent evolution of Himalaya's own design DNA. Familiar qualities such as boiled wool, jacquard knit and jacquard jersey are reinterpreted and complemented by woven and printed dresses in the characteristic Himalaya style.

The collection is further expanded by jersey dresses under the brand name Anna & Lena as well as our hand-knit styles, which support a women's project in India and make social responsibility tangible.

Sustainability remains a central pillar of our work. Many styles are GOTS certified, RWS certified or made from LENZING™ ECOVERO™, meeting high ecological, social and animal welfare standards throughout the entire supply chain.

By working with new suppliers who are also GOTS and RWS certified, we have been able to reduce prices on selected styles. This allows us to offer an attractive and competitive price-performance ratio this season – without compromising on quality, craftsmanship or responsibility.

We wish you great pleasure in discovering the collection and a successful order season.

Warm regards,

Your Himalaya Team

RWS BOILED WOOL

RWS certified boiled wool stands for the highest quality, natural functionality, and responsible production. Through the boiling process, pure virgin wool is felted and compacted using moisture and movement, without any chemical additives. This results in a particularly durable, shape-stable, and at the same time soft fabric.

Boiled wool is breathable, temperature-regulating, and naturally water- and dirt-repellent. It provides warmth in cold conditions without overheating and offers excellent wearing comfort - ideal for styles designed to be worn all year round.

The RWS certification (Responsible Wool Standard) guarantees animal welfare, the avoidance of harmful practices, and full traceability throughout the supply chain. At the same time, environmental and social standards are maintained across the entire production process.

RWS Certified Wool
C.U. 895719

JACQUARD KNIT

REVERSIBLE - DOUBLE FACE

100% ORGANIC COTTON

This high-quality cotton knit jacquard is produced as a double-face knit and can be worn on both sides. Two different knit patterns within one material offer versatile styling options and make the style particularly adaptable.

The fine jacquard structure gives the knit depth and character. The fabric is exceptionally soft, shape-stable, and, thanks to the high-quality cotton, offers a very high level of wearing comfort.

The material is GOTS certified (Global Organic Textile Standard) and meets the highest ecological and social standards throughout the entire production chain.

GOTS-CERTIFIED JACQUARD KNIT

100% ORGANIC COTTON

This exceptional multi-yarn jacquard knit stands out for its vibrant colour interplay and a distinctive design with a strong visual identity. The fine jacquard structure adds depth and expression to the knit.

The knit is exceptionally soft, shape-retaining and offers a very high level of comfort. The use of 100% organic cotton reflects a sustainable material choice and responsible production.

A statement of colour, texture and quality: this jacquard knit combines creative design with sustainable responsibility, making each piece truly special.

TWO-TONE DOUBLE-FACE JACQUARD KNIT

100% ORGANIC COTTON

Two-tone jacquard knit in double-face quality. The graphic pattern appears on both sides with reversed colour effects.

Made from organic cotton with a soft handle, good shape retention and excellent wearing comfort.

GOTS-certified - ensuring sustainable production throughout the entire supply chain.

HAND KNIT – TURTLENECK SWEATER

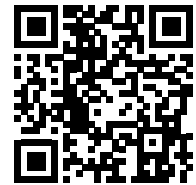

50% WOOL 50% COTTON - BOUCLÉ YARN

A social project.
Crafted with care.

DOING GOOD WITH EVERY PURCHASE

Our hand-knit collection at himalayashop.de combines timeless design with social responsibility. Each piece is carefully crafted by women as part of a social project in Auroville, South India. By purchasing these styles, you directly support fair wages, secure livelihoods and real opportunities for independence.

Every cardigan and every jumper stands for high-quality, lovingly handcrafted knitwear – and for a meaningful contribution to greater equality and sustainable change.

MÉLANGE JACQUARD

95% ORGANIC COTTON, 5% ELASTANE

GOTS-CERTIFIED MULTI-YARN ORGANIC COTTON JACQUARD

A jacquard made from melange organic cotton yarns, distinguished by depth, texture and quality. The fine jacquard construction gives the fabric a distinctive appearance and a premium hand feel.

Made from 95% organic cotton, GOTS-certified, this quality stands for responsible production throughout the entire supply chain. 5% elastane ensures added shape retention and a comfortable fit.

From this refined material, we have created five styles in two different colourways – versatile, durable and timelessly modern.

100% LYOCELL TENCEL - LENZING™

TENCEL™ Lyocell – consciously comfortable

TENCEL™ Lyocell represents a new generation of sustainable cellulose fibres made from wood sourced from certified or controlled origins (e.g. FSC®, PEFC®).

The fibres are produced in a modern, closed-loop manufacturing process in which more than 99.8% of the solvents are recovered, resulting in minimal waste and virtually no loss.

A key advantage: compared with conventional lyocell or modal fibres, the production of TENCEL™ Lyocell results in at least 50% lower water consumption and CO2 emissions. This significantly reduces the environmental footprint along the entire value chain and sets clear standards for responsible textile production.

WE HAVE UPDATED OUR SIZE SYSTEM

NEUES GRÖSSENSYSTEM DAMEN

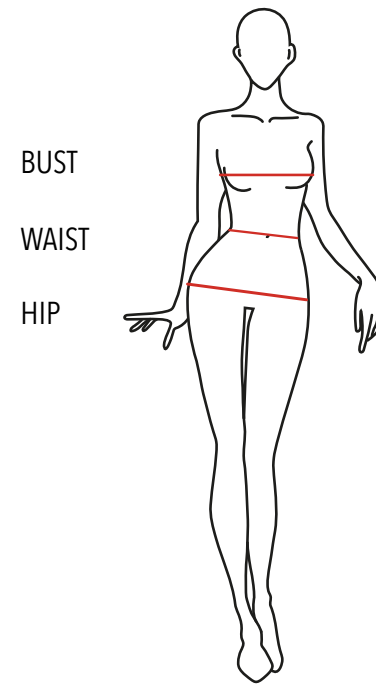

Wir haben unser Größensystem überarbeitet und die Größen neu eingestuft, um eine klarere und zeitgemäßere Passform-Zuordnung zu schaffen.

- * Die Größe 32 entfällt.
- * Die bisherige Größe 34 wird der Größe S zugeordnet.
- * Alle Größen werden entsprechend eine Stufe nach oben angepasst

WARUM WIR UNSER GRÖSSENSYSTEM ANPASSEN

In den vergangenen Saisons haben wir vermehrt Rückmeldungen erhalten, dass die Maßunterschiede innerhalb unserer Warengruppen als zu groß empfunden wurden. Gleichzeitig wurde die Größe XS (32) nur sehr selten nachgefragt. Aufgrund der geringen Bestellmengen war es uns nicht möglich, diese Größe konsistent anzubieten. Aus diesen Gründen haben wir unser Größensystem überarbeitet. Die Größen liegen nun näher beieinander und orientieren sich stärker an den tatsächlichen Körpermaßen. So möchten wir eine klarere Zuordnung und verlässlichere Passformen erreichen. Die in der Tabelle angegebenen Körpermaße dienen als verlässliche Orientierung.

Unser Ziel ist es, die Größen passgenauer zu gestalten.

NEW WOMEN'S SIZE SYSTEM

We have revised our size system and regraded the sizes to create a clearer and more contemporary fit structure.

- * Size 32 has been discontinued.
- * The former size 34 is now part of size S.
- * All sizes have been adjusted accordingly by one size step.

WHY WE HAVE ADJUSTED OUR SIZE SYSTEM

In recent seasons, we have received increasing feedback that the measurement differences within our product groups were perceived as too large. At the same time, size XS (32) was only rarely requested. Due to the low order volumes, it was not possible for us to offer this size consistently. For these reasons, we have revised our size system. The sizes are now closer together and are more closely aligned with actual body measurements. This allows for clearer size allocation and more reliable fits.

The body measurements shown in the table provide a reliable guideline. Our aim is to achieve a more accurate and consistent fit.

SIZE	S 34-36	M 38-40	L 42-44	XL 46-48	XXL 50
BUST	80-84	88-92	96-100	104-108	112-116
WAIST	66-69	72-76	80-84	88-92	96-102
HIP	90-93	97-100	103-106	109-112	115-119
