CLOTHING

SPRING / SUMMER 2027

# NEW SEASON NEW PERSPECTIVES

We are delighted to present the new HIMALAYA Spring/Summer 2027 collection. It combines feminine silhouettes, distinctive designs and responsible production using premium materials such as high-quality linen, GOTS-certified organic cotton, EcoVero™ viscose and TENCEL™ Lyocell by Lenzing.

The collection is complemented by exclusive prints inspired by the traditional Indian art of block printing, lightweight summer knitwear and selected hand-knitted styles. Premium craftsmanship and meticulous attention to detail make every piece truly special - sustainable fashion produced in small collections rather than mass production.

Together, we look forward to the new season with confidence. We firmly believe that quality, individuality and responsible practices will continue to be valued. Let us embrace the opportunities the new season brings and look ahead with optimism.

We hope you enjoy discovering the collection and wish you a successful ordering season.

*Your HIMALAYA Team*

Wir freuen uns, Ihnen die neue HIMALAYA Frühjahr/Sommer-Kollektion 2027 zu präsentieren. Sie steht für feminine Schnitte, einzigartige Designs und eine nachhaltige Produktion mit Materialien wie hochwertigem Leinen, GOTS-zertifizierter Bio-Baumwolle, EcoVero™-Viskose und TENCEL™ Lyocell by Lenzing.

Exklusive, von der traditionellen indischen Blockprint-Kunst inspirierte Dessins, leichte Sommerstrick-Qualitäten und ausgewählte, handgestrickte Modelle ergänzen die Kollektion. Hochwertige Verarbeitung und viel Liebe zum Detail machen jedes Modell zu etwas Besonderem - nachhaltige Mode in kleinen Serien statt Massenproduktion.

Gemeinsam möchten wir mit Zuversicht in die neue Saison starten. Wir sind uns sicher, dass Qualität, Individualität und verantwortungsbewusstes Handeln auch in Zukunft geschätzt werden. Lassen Sie uns gemeinsam den Blick nach vorn richten und die Chancen der neuen Saison nutzen.

Wir wünschen Ihnen viel Freude beim Entdecken der Kollektion und eine erfolgreiche Ordersaison.

*Ihr HIMALAYA Team*

# WOVEN – Tencel™ DENIM LOOK

100% TENCEL™ LYOCELL BY LENZING

This premium TENCEL™ Lyocell fibre by Lenzing combines exceptional softness, natural breathability and a beautifully fluid drape. Made from responsibly sourced wood, the fibres are produced in a resource-efficient closed-loop process that recovers and reuses more than 99% of the processing solvent. TENCEL™ Lyocell fibres are certified as biodegradable and compostable under suitable industrial, home, soil and marine conditions, offering outstanding comfort with a responsible approach to fibre production.

## CRINKLE STYLES

Made from 100% viscose, this fabric combines a soft handle with a fluid drape. The mill-dyed finish provides excellent colour brilliance and outstanding colour fastness. The skirt is fully lined due to the fabric's slight transparency.

## GOTS-CERTIFIED MULTI-YARN ORGANIC COTTON JACQUARD

A jacquard made from melange organic cotton yarns, distinguished by depth, texture and quality. The fine jacquard construction gives the fabric a distinctive appearance and a premium hand feel.

Made from 95% organic cotton, GOTS-certified, this quality stands for responsible production throughout the entire supply chain. 5% elastane ensures added shape retention and a comfortable fit.

From this refined material, we have created five styles in two different colourways - versatile, durable and timelessly modern.

## JACQUARD KNIT

REVERSIBLE - DOUBLE FACE

This high-quality cotton knit jacquard is produced as a double-face knit and can be worn on both sides.

Two different knit patterns within one material offer versatile styling options and make the style particularly adaptable.

The fine jacquard structure gives the knit depth and character. The fabric is exceptionally soft, shape-stable, and, thanks to the high-quality cotton, offers a very high level of wearing comfort.

The material is GOTS certified (Global Organic Textile Standard) and meets the highest ecological and social standards throughout the entire production chain.

## WE HAVE UPDATED OUR SIZE SYSTEM

### NEW WOMEN'S SIZE SYSTEM

We have revised our size system and regraded the sizes to create a clearer and more contemporary fit structure.

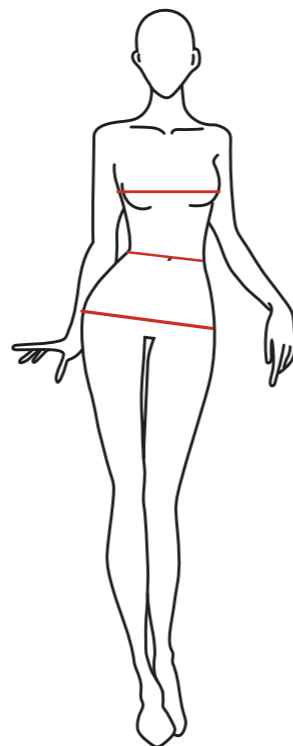

- \* Size 32 has been discontinued.
- \* The former size 34 is now part of size S.
- \* All sizes have been adjusted accordingly by one size step.

### WHY WE HAVE ADJUSTED OUR SIZE SYSTEM

In recent seasons, we have received increasing feedback that the measurement differences within our product groups were perceived as too

large. At the same time, size XS (32) was only rarely requested. Due to the low order volumes, it was not possible for us to offer this size consistently. For these reasons, we have revised our size system. The sizes are now closer together and are more closely aligned with actual body measurements. This allows for clearer size allocation and more reliable fits. The body measurements shown in the table provide a reliable guideline. Our aim is to achieve a more accurate and consistent fit.

BUST  
WAIST  
HIP

SIZE	S 34-36	M 38-40	L 42-44	XL 46-48	XXL 50
BUST	80-84	88-92	96-100	104-108	112-116
WAIST	66-69	72-76	80-84	88-92	96-102
HIP	90-93	97-100	103-106	109-112	115-119

### EMBRACING NEW TECHNOLOGIES

Our garments are genuine and have been photographed using traditional photography. The models and backgrounds in this catalogue have been created using artificial intelligence to create inspiring visual worlds. The responsible use of this technology reduces travel and production requirements, helping to conserve resources and lower emissions. Transparency matters to us, which is why we openly disclose the use of artificial intelligence in the creation of the models and backgrounds featured throughout this catalogue.

### NEUE TECHNOLOGIEN VERANTWORTUNGSVOLL NUTZEN

Unsere Produkte sind echt und wurden klassisch fotografiert. Die Modelle und Bildwelten dieses Katalogs entstanden mithilfe künstlicher Intelligenz und schaffen eine inspirierende Atmosphäre. Der verantwortungsvolle Einsatz dieser Technologie reduziert Reise- und Produktionsaufwand, schont Ressourcen und trägt zur Verringerung von Emissionen bei. Transparenz ist uns wichtig. Deshalb informieren wir offen über den Einsatz künstlicher Intelligenz bei der Gestaltung der Bildwelten dieses Katalogs.
